Engineering Manager

Description

We are seeking an **Engineering Manager** to join our team.

The Engineering Manager leads our engineering and R&D teams in the design and development of innovative solutions for the retail segment.

Jahabow is a leading designer and fabricator of commercial-grade retail display cases and millwork/décor. Associates work directly with leading retailers like Sam's Club, Academy, Kohl's, and Walmart to create shopping experiences seen every day. Our company must foster a creative and self-motivated atmosphere to be relevant in today's retail world, and we are looking for energetic and industrious people to help us build on our decades of success.

Jahabow is an Equal Opportunity Employer.
